

Quick Tips for Signing in as the Alternative Host

To join as the Zoom meeting as the Host, you can either click the link provided in the automated Zoom email, OR you can use the Host link in the program confirmation email you receive from AZ Humanities staff. They are the same links!

If you use the Host link to join, but you are **not** signed into your alternative Host Zoom account, you may see the message below. You can sign into your alternative host Zoom account by clicking the "login" link to start the meeting as the host.

Zoom will prompt you to sign into your alternative host account.

You need the email address and password associated with the account you used when you first accepted the Zoom invitation to join the Arizona Humanities account as an alternative host.

Note that if your alternative host email is a Gmail account/linked to Google, you can sign in through your Google account.
